REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Claims 1-34 are allowed over the prior art of record because none of the prior art of record teaches or fairly suggests the claimed operation of building system structures based on the received formatting parameters, wherein the structures comprises the "soft partition table", the "sector descriptor file", and the "offset entry file", as recited in the independent claim 1, lines 6-15; claim 14, lines 8-17; and claim 27, lines 10-21.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

a. Aasheim et al., US 2003/0163663 teaches that bit map is used to indicate if a particular physical sector is free or not.

b. Cabrera et al., U.S. Pat. 5,802,599, teaches a list of free extent descriptors which are derived from the sectors that are free in the storage device, as initially described in a bit map representation.
